is often referred to as “central science”. As Chemistry Class 11 is a mandatory subject, it needs significant focus.

Free Chemistry Flashcards - Flashcards and Study Games

Today organic chemistry is the study of the chemistry of the carbon compounds, and inorganic chemistry is the study of the chemistry of all other elements. It may seem strange that we divide chemistry into two branches—one that considers compounds of only one element and one that covers the 100-plus remaining elements.
