A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

A rare and brilliant story from Zadie Smith, taking us deep into the life of a young woman, Fatou, domestic servant to the Derawals and escapee from one set of hardships to another. Beginning and ending outside the Embassy of Cambodia, which happens to be located in Willesden, NW London, Zadie Smith's absorbing, moving and wryly observed story suggests how the apparently small things in an ordinary life always raise larger, more extraordinary questions. 'It's scale is superficially small, but its range is lightly immense; in the first couple of pages, the world from Ghana to London to Cambodia enters. It is a fiction of consequences both global and heartrenchingly intimate. This voice is global, plural and local, with a delicate grip on historic consequences Works on an awesomely global scale, and the relations of slavery and mastership are traced in both personal and international scale.' Philip Hensher, *The Guardian* 'Reading it is a bit like having a starter in a restaurant that is so good you wish you had ordered a big portion as a main course, only to realise, as you finish it, that it was exactly the right amount.' 'A perfect stocking-filler of a book that shows that short-form fiction can be as vibrant and as healthy as any densely realised full-length novel.' Louise Doughty, *The Observer* 'Smith serves up a smasher.' Leyla Sanai, *The Independent On Sunday*

This New York Times–bestselling exploration of the Arctic, a National Book Award winner, is “one of the finest books ever written about the far North” (*Publishers Weekly*). “The nation’s premier nature writer” travels to a landscape at once barren and beautiful, perilous and alluring, austere yet teeming with vibrant life, and shot through with human history (*San Francisco Chronicle*). The Arctic has for centuries been a destination for the most ambitious explorers—a place of dreams, fears, and awe-inspiring spectacle. This “dazzling” account by the author of *Of Wolves and Men* takes readers on a breathtaking journey into the heart of one of the world’s last frontiers (*The New York Times*). Based on Barry Lopez’s years spent traveling the Arctic regions in the company of Eskimo hunting parties and scientific expeditions alike, *Arctic Dreams* investigates the unique terrain of the human mind, thrown into relief against the vastness of the tundra and the frozen ocean. Eye-opening and profoundly moving, it is a magnificent appreciation of how wilderness challenges and inspires us. Renowned environmentalist and author of *Desert Solitaire* Edward Abbey has called *Arctic Dreams* “a splendid book . . . by a man who is both a first-rate writer and an uncompromising defender of the wild country and its native inhabitants”—and the *New Yorker* hails it as a “landmark” work of travel writing. A vivid, thoughtful, and atmospheric read, it has earned multiple prizes, including the National Book Award, the Christopher Medal, the Oregon Book Award, and a nomination for the National Book Critics Circle Award. This ebook features an illustrated biography of Barry Lopez including rare images and never-before-seen documents from the author’s personal collection.

We’ve been conditioned to think about creative genius as a dichotomy: dreamers versus doers, creativity versus discipline, the spark versus the grind. But what if we’re wrong? What if it’s the spark and the grind? We love people whose creative genius arrives in sudden sparks of inspiration. Think of Archimedes in his bathtub or Newton under his apple tree. But we also admire people who work incredibly hard and long for their creative breakthroughs. Think of Edison in his lab, grinding through hundreds of failed variations on the lightbulb. We remember his words in tough times: “Genius is 1 percent inspiration, 99 percent perspiration.” Now Erik Wahl, a visual artist, speaker, and entrepreneur, helps us unite the yin and yang of creativity—the dynamic new ideas with the dogged effort. He shows why we won’t get far if we rely on the spark without the grind, or the grind without the spark. What the world really needs are the creators who can hold the two in balance. Fortunately, it’s possible to get good at both, as Wahl knows from experience. After his corporate career suddenly ended, he pursued a spark—to paint photorealistic portraits—and ground it out until he got good enough to make very good art very quickly. That’s the basis of his riveting live shows, which have captivated skeptical audiences who never expected to be inspired by art—and taught them to embrace creativity in a whole new way. This book offers surprising insights and practical advice about how to fan the sparks and make the grind more productive. Wahl deftly synthesizes the wisdom of other artists, philosophers, scientists, and business visionaries throughout history, along with his own views. Here’s how he sums up his approach: The world needs people who enjoy swimming in ideas until they discover a great one. The world also needs doers who have a gift for activation, a.k.a. “getting s*** done.” But the most potent individual creators in any industry or environment have learned how to be both. They’ve learned how to spark their grind and they’ve learned how to grind their sparks. As a result, they not only make things happen, they make great things. If you want to ensure constant creativity in your life and produce your most innovative work—this is your guide.

Although much has changed in schools in recent years, the power of differentiated instruction remains the same—and the need for it has only increased. Today's classroom is more diverse, more inclusive, and more plugged into technology than ever before. And it's led by teachers under enormous pressure to help decidedly unstandardized students meet an expanding set of rigorous, standardized learning targets. In this updated second edition of her best-selling classic work, Carol Ann Tomlinson offers these teachers a powerful and practical way to meet a challenge that is both very modern and completely timeless: how to divide their time, resources, and efforts to effectively instruct so many students of various backgrounds, readiness and skill levels, and interests. With a perspective informed by advances in research and deepened by more than 15 years of implementation feedback in all types of schools, Tomlinson explains the theoretical basis of differentiated instruction, explores the variables of curriculum and learning environment, shares dozens of instructional strategies, and then goes inside elementary and secondary classrooms in nearly all subject areas to illustrate how real teachers are applying differentiation principles and strategies to respond to the needs of all learners. This book's insightful guidance on what to differentiate, how to differentiate, and why lays the groundwork for bringing differentiated instruction into your own classroom or refining the work you already do to help each of your wonderfully unique learners move toward greater knowledge, more advanced skills, and expanded understanding. Today more than ever, *The Differentiated Classroom* is a must-have staple for every teacher's shelf and every school's professional development collection.

Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.
