Edmunds.com Used Cars & Trucks Buyer's Guide 2004 Breyerfest 2017 Edition. When I had 100 models I could still remember what I owned. When I had 300 models I computerized my records - and crated the first version of this list. That was years ago. Breyer had added thousands of new models and hundreds of new molds. New (and old) companies have come and gone, or changed names. I'm always looking for more information, especially for companies and models not listed in this book. Detail start to escape me - was that the bay with 3 socks and black hooves, or the bay with 3 socks and pink hooves, of the bay with 4 socks version? There is just too much information to remember. I'm an avid collector. When I first started in the hobby, there were no books available, just box catalogs. This book is meant to be a record of YOUR collection. It is meant to be written in. You can mark if you own it or just want it. You can even write in a name for your model under the notes section. See you at Breyerfest!

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate

ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.
