### **Planet Hope**

"The author retraces Frederick Law Olmsted's journey across the American South in the 1850s, on the eve of the Civil War. Olmsted roamed eleven states and six thousand miles, and the New York Times published his dispatches about slavery and its defenders. More than 150 years later, Tony Horwitz followed Olmsted's route, and whenever possible his mode of transport--rail, riverboats, in the saddle--through Appalachia, down the Ohio and Mississippi, through Kentucky, Tennessee, Louisiana, and across Texas to the Rio Grande, discovering and reporting on vestiges of what Olmsted called the Cotton Kingdom"--

The conclusion to Penelope Green's bestselling trilogy about her life in Italy that includes *When in Rome* and *See Naples and Die* From her rooftop terrace, Penelope looks out across the sparkling waters of the Bay of Naples, and into a garden of lemon trees and magnolias. Has her Italian dream come true? Imagine catching a ferry home and stepping onto a waterfront lined with multicoloured buildings, busy with fishing boats and couples strolling to their favourite café. For Penny and her Italian love Alfonso, the idyllic island of Procida can offer the life they are looking for. But first Penny has to find a way into its small community. One thing she has in common with the locals is a love of food, so she sets herself a goal - to master the Procidan cuisine and become more than just a visitor. Across kitchen tables, in bustling cafés, and over long lunches under vine-covered pergolas, Penny learns the art of Italian cooking, builds friendships, and discovers the rhythms and secrets of island life. 'It's a lovely chronicle of the joys and pitfalls of moving to a small community A charming concoction of love, food and life ? with recipes!' - The Australian Women's Weekly 'With her observant eye for detail, young Sydney-born journalist Penelope Green's account of her time living on the beautiful Italian island of Procida with her partner, Alfonso, is an endearing insight into a small community where life, love and food reign supreme' - Sunday Telegraph 'interspersed with mouthwatering recipes and Procida is explored from a historical, cultural, architectural, social and heart-on-the-sleeve

*A Summer in the High Sierra is based on Laurence Brauer's journal of a 38-day solo round trip backpacking through the timberline country from Yosemite to Kings Canyon. Traveling outside cultural and religious doctrines, Brauer examines the assumptions of human societies and find that neither the rational deconstructions of science nor the leap of faith of religion contain the breadth and depth of nature's message. Seeing beyond our dualistic doctrines, he redefines our concepts of human nature, evolution, and spirituality. The book features 96 full-color photographs illustrating the journey, which took the author along sections of the John Muir Trail, High Sierra Trail, and off-trail locations. An Epilogue recounting a ten-day trip one year later and an Afterword recounting a short return trip to Vogelsang in which the author reassesses the previous ten years are also included.*

*John Brown's failed raid on the federal armory in Harper's Ferry Virginia served as a vital precursor to the Civil War, but its importance to the struggle for justice is free standing and exceptional in the history of the United States. In Freedom's Dawn, Louis DeCaro, Jr., has written the first book devoted exclusively to Brown during the six weeks between his arrest and execution. DeCaro traces his evolution from prisoner to convicted felon, to a prophetic figure, then martyr, and finally the rise of his legacy. In doing so he touches upon major biographical themes in Brown's story, but also upon antebellum political issues, violence and terrorism, and the themes of political imprisonment and martyrdom.*

## **Dublin review**

*This is a small sampling of Mark Twain's life-long fulminations against the editors, printers, and proofreaders who, subtly or grossly, altered his work and shrouded his intentions as they transmitted his writing from manuscript to type. Through unauthorized changes and inadvertent errors, Mark Twain's first publishers brought out texts full of thousands of errors in form and content. Later publishers then based their reprints on these corrupt editions and added errors of their own. It is the aim of the Iowa-California edition to strip away this accretion of error and present texts faithful to the author's intention. By comparing all the life-time version of Mark Twain's works, the editors are able to isolate the author's revisions from the printers and publishers' changes. The record of this comparison supplies not only the evidence for editorial decisions, but also the history of the author's efforts to shape his work. In addition, these volumes include previously uncollected work, work that has long been out of print, and such unpublished writing as related drafts, working notes, and marginalia. The texts are established at the Center for Textual Studies at the University of Iowa or at the Mark Twain Papers in The Bancroft Library at the University of California, Berkeley. The costs for editorial work have been met by generous support from the Editing Program of the National Endowment for the Humanities, an independent federal agency, and other institutional and private donors. The edition is published by the University of California Press with financial assistance from the Graduate College at the University of Iowa. All volumes are submitted to the Center for Editions of American Authors, or to its successor, the Committee for Scholarly Editions, for examination and approval*

*Schedules, bills, errands, the dying water heater in the basement--sometimes running away from it all is a huge temptation. In a wise, wonderful novel that's as sweet, tart, and refreshing as a tall glass of lemonade on a hot day, you'll meet a couple of dear friends who actually take the plunge. Luckily, they've got the best safety net two women could have--each other. Every day in her busy Wisconsin beauty salon, Eve's clients trust her with their hair and their hearts. Unattached and not unhappy about it, she chugs along through life, fueled by coffee, gossip, and the daily round of split-end crises and dye disasters--until long-time client Ruby proposes something completely wild. Maybe it's the perm fumes, but she wants Eve to drop everything and move with her to a rambling, dilapidated cottage way up north at the lake. What's even crazier is that Eve agrees. . . The lure of escaping their ordinary lives for total freedom is too tempting to ignore, although neither one of them expects it to come with a barn full of cobwebs, an eccentric cast of local characters, and a brand-new business to run. The difference is, bare feet, good food--not to mention the time to make it--and the serene beauty of the lake in their front yard make facing each new challenge a lot more fun. If life is what you make of it, Eve and Ruby are bound and determined to make it fabulous. . .*

*The #1 New York Times–bestselling story about the American Olympic rowing triumph in Nazi Germany—from the author of Facing the Mountain. For readers of Unbroken, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an*
