The Everything Dreams Book In this sequel to *The Haunting of America*, national bestselling authors Joel Martin and William J. Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events. In unearthing the roots of America's fascination with the ghosts, goblins, and demons that possess our imaginations and nightmares, Martin and Birnes show how the paranormal has driven America's political, public, and military policies. The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions: UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union, out-of-body experiences used to gather sensitive intelligence on other countries, and even spirits summoned to communicate with living politicians. *The Haunting of Twentieth-Century America* is a thrilling evidence-based exploration of the often unexpected influences of the paranormal on science, medicine, law, the government, the military, psychology, theology, death and dying, spirituality, and pop culture. True Tales of the Paranormal 12 Talks by Rama - Dr. Frederick Lenz

Soul Journeys "Reading this book requires an open and questioning mind, not a mind that has already accepted just one answer. I, for one, have benefited greatly by reading his words and listening to his lectures." — From the foreword by Sir Jason Winters, KGSJ Licauco, in this book, boldly discourses topics that might be unconventional for most people, but very thought-provoking. Such topics might be disturbing, but they will satiate the intellectually curious and those who don't settle only in a single point of view.

Signs of Reincarnation *The On the Road with Rama* transcripts capture the words of a wonderful tape set recorded in 1985 at different power places in the United States. Rama - Dr. Frederick P. Lenz specifically chose these places because the location emanated the essence of the topic he wished to discuss. He did not impose his wishes on the place; he made it clear that the place dictated the topic. Are these talks bound in time? Can you travel with Dr. Lenz even today? Here's what he says in "Neutral Density," recorded at the Continental Divide: "For me to be here in this moment is to be aware of you, to sense you, to feel who, in what you would call the future, will be listening to my voice -- to feel each one of you because the future already exists. It's just a ring of awareness. And I step into that ring for a moment so that I can be with you now. Not with a sense of knowing that Joe or Suzie is listening, but feeling your being -- because what's in a name anyway?" So pack your bags (better yet, throw them out!), put fuel in your car of perception and join the journey. You are about to go "On the Road with Rama."

Mystery of Reincarnation While snowboarding in the Himalayas, a young American runs into a Tibetan monk and becomes his disciple. The monk teaches him to apply the principle of the sport to become happy and rich. By the author of Lifetimes: True Accounts of Reincarnation.

Reincarnation This is the revised edition of Dr. Stevenson's 1987 book, summarizing for general readers almost forty years of experience in the study of children who claim to remember previous lives. For many Westerners the idea of reincarnation seems remote and bizarre; it is the author's intent to correct some common misconceptions. New material relating to birthmarks and birth defects, independent replication studies with a critique of criticisms, and recent developments in genetic study are included. The work gives an overview of the history of the belief in and evidence for reincarnation. Representative cases of children, research methods used, analyses of the cases and of variations due to different cultures, and the explanatory value of the idea of reincarnation for some unsolved problems in psychology and medicine are reviewed.

Through Time Into Healing

Yoga Journal Some deep alternative current has begun flowing out of the spiritual adventures and identity struggles of recent generations. Of course, we didn't create the conditions or questions of this new age; we got caught in them. The ground shifted, the old gods departed, the economic and political utopias crumbled, and the traditional answers were washed away. We didn't leave home; home left us. How did a nice Jewish boy from Nebraska become a Buddhist in California? Join Wes "Scoop" Nisker as he takes us on a hilarious, wild ride from West to East and back again in his quest for true self and enlightenment. Combining the best elements of memoir and social commentary, Nisker uses his own story to illuminate the Baby Boomers' roots of spiritual hunger in postwar America. His journey begins in middle America (Nebraska to be exact) in the middle of the twentieth century, travels through the heyday of the Beats and the Hippies, the birth of the modern environmental movement, and winds up in the current epicenter of Buddhism in the West—California. Full of colorful and immediately recognizable figures of art, religion, and popular culture—from Alfred E. Newman to Allen Ginsberg—The Big Bang, the Buddha, and the Baby Boom is a guided tour of both the outer and inner move-ments that have culminated in the growing culture of Western Buddhism—a lasting, vivid picture of how the Baby Boom generation came to be identified with spiritual seeking, how they went about the search, what they have found and created, and what their true legacy is.

The Haunting of Twentieth-Century America There are things in this world that we cannot explain, and occurrences that make us ponder the very nature of our existence. The author also provides suggestions on how to deal with paranormal experiences and where to go for help and information. Even readers who have never had psychic experiences will be drawn into the lives of those who have and will be left questioning the world as we know it.

EXPLORING REINCARNATION The 28 transcribed lectures from the luminous Lakshmi Series lectures of 1982 and 1983 are contained in this book. As a teacher, Rama - Dr. Frederick Lenz expected his students to study, understand and live the foundations of self-discovery. These foundations are described in the Lakshmi Series. The talks go into depth on the mystical and live-in-the-world practices that form the basis of Buddhist practice in the 21st century. These are the first set of lectures Rama ever recorded. Reading the talks, in addition to hearing them, provides an additional way of drawing from Rama's body of knowledge. All of Rama's teachings are steeped in the practice of meditation. To meditate well, one must know how to gain and retain energy; this is the art and science of Rama's Buddhist teachings. To gain energy and to meditate well, Rama presents and discusses topics in the Lakshmi Series that are not covered anywhere else in his published works, yet are vital to know. Advanced teachings on women and enlightenment, dreaming, the Tibetan rebirth process and achieving spiritual balance are some of the spiritual doorways presented in this series.

Deep Healing and Transformation Psychiatry remains an emerging discipline. Many people suffer from ailments that have no apparent cause, no obvious cure. Quite by accident, while using hypnotherapy, Dr. Modi discovered that pastlife regression can be a beneficial treatment. Many of these patients, under hypnosis, claimed to have spirits attached to their bodies and energy fields, creating psychological and physical problems. Based on years of experience, Dr. Modi describes techniques that release these spirits, revealing how patients can sometimes recover within a few sessions. While most doctors would agree that emotional states affect our health, few would give credence to spiritual "influences." In this truly groundbreaking book, Dr. Modi presents evidence that something beyond the physical affects the health of many people, and urges medical scientists to objectively assess this revolutionary approach to mental and, often, physical illness. Pioneers have the courage to put aside the status quo and evaluate what the evidence shows, even if it defies the prevailing logic of the time. Both physicians and the general public should explore the pioneering work of Dr. Modiwork which no doubt has produced many remarkable healings.

The Big Bang, the Buddha, and the Baby Boom Acorns delineates the future of humanity as a reunification of intellect with the Deep Self. Having chosen to focus upon ego (established securely by the time of Christ), much more beta brain wave development will destroy our species and others, which process has already begun. We create our own realities through beliefs, intents and desires and we were in and out of probabilities constantly. Feelings follow beliefs, not the other way around.

The Enlightenment Cycle What exactly is the New Age movement? Why has it become the dominant force of the Zeitgeist, invading nearly every aspect of American life? After years of researching this burgeoning movement, columnist, author, and magician Henry Gordon is one of the world's foremost experts on every aspect of the New Age - its derivations and content, the people most involved in it, the forces that motivate and prolong it, and the enormous amount of money changing hands as the me generation takes on astrology, crystals, runes, channeling, mysticism, yoga, acupuncture, herbal medicine, telepathy, precognition, clairvoyance, biofeedback, biorhythms, reincarnation, and every sort of psychological technique for heightened awareness. At the forefront of the brouhaha is high-profile actress, lecturer, and free spirit Shirley MacLaine. This book is strictly unauthorized - a freewheeling and spirited roast of the New Age, including a history of trends leading to the movement (rooted in 19th-century occultism), and observations on the vast amount of coverage given to the movement (and to New Age celebrities) by the print and broadcast media. Although Gordon delights in skewering the absurdities of the New Age, there's a serious emphasis to his research and his message: While the gurus are busy channeling into new realities, they are becoming phenomenally rich without contributing in any significant way to the alleviation of human unhappiness - and very often, without making any sense at all. Sharp wit and common sense. Wise and often hilarious. -Rocky Mountain News

On his first downhill run, he plowed into an aged Buddhist monk who told the incredulous teen their meeting was destiny, that his past life enlightenment would return, and he would help millions of people. Upon his return to the U.S., he earned his Ph.D., began to teach on his own, and implemented new, American ways of placing Westerners on the path to enlightenment, beginning with higher and happier states of mind. As his own realization grew, the energy he emanated was like a huge, benevolent force. This true biography includes interviews and one on one stories from over 100 students and colleagues, each with a different perspective. Rama did not just speak about enlightenment; he modeled it.
