MASTER OF SCIENCE IN OPERATIONS RESEARCH.

Operations research goes back nearly 60 years at NC State, when it began as an introductory course. Then it became a minor across the departments of statistics and electrical engineering, but by 1970, it was a full-blown, independent major. The exam covers five broad domains: Attacks, Threats and Vulnerabilities (24% of the exam) Architecture and Design (21%) Implementation (25%) Operations and Incident Response (16%) Governance, Risk and Compliance (14%) Test-takers have 90 minutes to complete the \$370 exam composed of up to 90 multiple-choice and performance-based questions. The Master of Science in Operations Management is designed for professionals who want to return to school to receive specialized training in managing business and government operations. Every industry and government organization needs operations management professionals to develop products and services to serve their customers.
