This one-volume history on the Civil War brings the events, figures, and battles of monumental conflict vividly to life. Absorbing details of military campaigns, battlefield strategies, and personalities revealed in an audacious style that carries readers breathlessly along from the day of Lincoln's inauguration to Lee's surrender at Appomattox Court House. [Source: Goodreads.com] "The present one-volume history of the war is written for the man-in-the-street who, perhaps justifiably, has not the time to follow out the details of controversies as to the exact sequence of events, especially in some of the battles. It is an effort to follow the main currents of fact and emotion during the war; to include practically everything that contributed to the final result and to omit nearly everything else." [From Author's Foreword] Richly illustrated by distinguished artist Merritt Cuttler with over 40 maps and illustrations. The first in a new series of 12th-century murder mysteries, perfect for fans of Ellis Peters' Brother Cadfael series June 1143: the Lord Bishop of Winchester's Clerk is bludgeoned to death in Pershore Abbey, and laid before the altar in the attitude of a penitent. Everyone who had contact with him had reason to dislike him, but who had reason to kill him? The Sheriff of Worcestershire's thief taker, the wily Serjeant Catchpoll, and his new and unwanted superior, Acting Under-Sheriff Hugh Bradecote, have to find the answer when nobody wants the murderer apprehended—until the next death. October 1143. His task dispatched, a mysterious archer melts back into the forest leaving a pile of corpses in his wake. The lord Sheriff of Worcester cannot ignore such a brazen attack on the salt road from Wich, nor the death of a nobleman in the wrong place at the wrong time. And so Hugh Bradecote and Serjeant Catchpoll are dispatched to hunt an elusive killer and his gang, and put a stop to the mounting attacks. But it is not easy to get the culprits in their sights with a reeve keen to keep his position at all costs, a lord with his own ends to serve and a distrustful and vengeful widow to whom Bradecote is increasingly attracted. 'Thoroughly engaging and beautifully written . . . A page-turner' *Mystery People* The third instalment in the Bradecote and Catchpoll series. *Ordeal by Fire* blends the most up-to-date scholarship with interpretations based on decades of teaching, research, and writing, to tell an important story—that of the American Civil War and Reconstruction. Written by a leading Civil War historian and Pulitzer Prize winner, this text describes the social, economic, political, and ideological conflicts that led to a unique, tragic, and transitional event in American history. The fourth edition welcomes the addition of coauthor James Hogue of University of North Carolina, Charlotte. Hogue brings his Reconstruction expertise to the third section of the book, bringing more up-to-date scholarship and interpretations to the story of repairing a nation. On Thursday, May 22, 1997, a night of the auspicious full moon, a senseless and cruel act and a raging fire brutally altered the life of an Indian woman in a Toronto suburb. Born in Rajasthan, India, Rita leaves her native country with her diplomat father and her family to spend her childhood years in charming and exotic places like Burma, Thailand, and Ghana. Her innocent, happy, and sheltered life is imbued with a deeply reflective and philosophical nature. But her childhood comes to an end, with her marriage to a fellow Indian from the diplomatic circle of Accra. Shock and horror follow, for the union is traumatic. After living in England for a few years, the couple immigrate to Canada, where they have two children. But the outcome, ultimately, is breakup and tragedy. *Ordeal by Fire* is a profoundly moving account, evocative of the tradition and

Accompanys: 9780072317367 .An examination of the workings of trial by ordeal from its first appearance in the barbarian law codes, tracing its use by Christian societies to its last use as a test for witchcraft in modern Europe and America. Henry Charles Lea was one of the first American historians to use what would later be termed comparative and anthropological approaches to history. Under his pen, the study of the medieval ordeal becomes a study in cultural history. Reprinted here from the fourth revised edition of 1892, the book begins by tracing the role of the ordeal in non-Western and ancient societies, showing the mental world to which it belongs: a limited trust in the public order and purely human methods of inquiry, and a larger faith in divine intervention and immanent justice. The work then describes the uses of the institution through the European Middle Ages to its final abolition, and in the process offers a rich typology of ordeals. Additional documents included in this edition present formulas and descriptions of some of the ordeals most frequently used: the ordeal by boiling water, by hot water, by cold water, by hot iron and water, by glowing plowshares, by fire, and the ordeal of the cross. Om den nordamerikanske borgerkrig 1861-1865, herunder om styrkernes organisation og struktur, forholdet mellem nord og syd og de militære kampanjer. In only 90 seconds, a fire in the Station nightclub killed 100 people and injured hundreds more. It would take nearly 20 years to find out why—and who was really at fault. All it took for a hundred people to die during a show by the hair metal band Great White was a sudden burst from two giant sparklers that ignited the acoustical foam lining the Station nightclub. But who was at fault? And who would pay? This being Rhode Island, the two questions wouldn't necessarily have the same answer. Within 24 hours the governor of Rhode Island and the local police commissioner were calling for criminal charges, although the investigation had barely begun, no real evidence had been gathered, and many of the victims hadn't been identified. Though many parties could be held responsible, fingers pointed quickly at the two brothers who owned the club. But were they really to blame? Bestselling author and three-time Emmy Award-winning reporter Scott James investigates all the central figures, including the band's manager and lead singer, the fire inspector, the maker of the acoustical foam, as well as the brothers. Drawing on firsthand accounts, interviews with many involved, and court documents, James explores the rush to judgment about what happened that left the victims and their families, whose stories he also tells, desperate for justice. Trial By Fire is the heart-wrenching story of the fire's aftermath because while the fire, one of America's deadliest, lasted fewer than two minutes, the search for the truth would take twenty years. Offers a broader, more contextualized understanding of the function of ordeals in medieval literature and society. "A Must Read Romance. This is one of the best books I've read this year. It has everything a book should have: action, adventure, violence, a butt-kicking heroine and one hot hero." —USA Today This world is trying to kill Lily Proctor. Her life-threatening allergies make it increasingly difficult to live a normal life, and after a completely humiliating incident ruins her first (and perhaps only) real party, she's ready to disappear. "Come and be the most powerful person in the world." Suddenly, Lily finds herself in a different Salem. One overrun with horrifying creatures and ruled by powerful women—including Lillian, this world's version of Lily. "It will be terrifying. It was for me." What made Lily weak at home, makes her extraordinary here. It also puts her in terrible danger. Faced with new responsibilities she can barely understand and a love she never expected, Lily is left with one question: How can she be the savior of this world when she is literally her own worst enemy? To give instructors who use this textbook maximum flexibility, the first two parts of Ordeal by Fire are now available as individual paperbacks. Volume one describes the social, economic, ideological and political conflicts that lead to war; Volume two will cover all aspects of the war itself. Both volumes try to go beyond the range of a standard textbook to capture the human drama and excitement of a tragic and transitional period in US history. For the second edition, Professor McPherson has incorporated new scholarship on blacks, women and other non-

elite groups, including new material on women and workers in the antebellum US, women in the wartime North, and the home front in the confederacy. Written by a leading Civil War historian and Pulitzer Prize winner, this text describes the social, economic, political, and ideological conflicts that led to a unique, tragic, and transitional event in American history. The third edition incorporates recent scholarship and addresses renewed areas of interest in the Civil War/Reconstruction era including the motivations and experiences of common soldiers and the role of women in the war effort. This study of Newfoundland is a brilliant combination of first-hand observation, and of research into fascinating source materials. Professor Fay made tours of Newfoundland and of Labrador and examined documentary material in London and the West Country. Both his observations and his source-material are fresh and stimulating, and he writes in his usual lively provocative style. Professor Fay relates the economic history of Newfoundland to the seafaring and commercial background of the Island's first inhabitants. Many parallels can be drawn between life in early Newfoundland and in the west of England where the enterprises which first discovered Newfoundland and its resources were founded. Despite legal restrictions on the growth of permanent settlements, Newfoundland developed inexorably from a simple fishery to a full-fledged colony. And just as Newfoundland could not help its progression from fishery to established settlement, so today it is inevitably pressing towards industrial maturity. The material in this volume is based upon a series of lectures first delivered in 1953 at Memorial University, St. John's Newfoundland. September 1143. Serjeant Catchpoll hopes a fire at a Worcester silversmith's is just an accident, but when a charred corpse is discovered following a second fire, he has no choice but to call in the undersheriff, Hugh Bradecote, to help find the culprit. Bradecote may be new to the job compared to his weather-beaten, wily and experienced colleague, but his analytical eye is soon hard at work. With further fires, a hooded figure stalking the streets, and a possible murder that has gone undiscovered for some months, the duo must avoid getting more than their fingers burnt as they piece together the arsonist's vengeful motive. The Civil War is the central event in the American historical consciousness. While the Revolution of 1776-1783 created the United States, the Civil War of 1861-1865 preserved this creation from destruction and determined, in large measure, what sort of nation it would be. The war settled two fundamental issues for the United States: whether it was to be a nation with a sovereign national government, or a dissoluble confederation of sovereign states; and whether this nation, born of a declaration that all men are created with an equal right to liberty, was to continue to exist as the largest slaveholding country in the world. The Constitution of 1789 had left these issues unresolved. By 1861 there was no way around them; one way or another, a solution had to be found. - Preface.
