By analyzing concrete examples of the creation of a heritage in the context of migration, this multi-sited ethnography considers the implications of representations of religions and diaspora for Sindhi Hindus and other similar communities.

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards - 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly. • The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book. • In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summarised in the chapter. • All chapters have been revised and adapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest. We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.), M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.

This immensely valuable book of Solved Previous Years' Papers is specially published for the aspirants of UGC-NET (Paper-I) of Junior Research Fellowship and Assistant Professor Eligibility Exam. The book comprises several Solved Previous Years' Papers of UGC-NET Paper-I. Explanatory Answers are presented in such a manner to be useful for study and self-practice. The book is aimed to help you prepare well and sharpen your problem-solving skills by practising through numerous questions in these solved papers and face the exam

with confidence, successfully.

The book provides insights into International Conference on Smart Innovations in Communications and Computational Sciences (ICSICCS 2017) held at North West Group of Institutions, Punjab, India. It presents new advances and research results in the fields of computer and communication written by leading researchers, engineers and scientists in the domain of interest from around the world. The book includes research work in all the areas of smart innovation, systems and technologies, embedded knowledge and intelligence, innovation and sustainability, advance computing, networking and informatics. It also focuses on the knowledge-transfer methodologies and innovation strategies employed to make this happen effectively. The combination of intelligent systems tools and a broad range of applications introduce a need for a synergy of disciplines from science and technology. Sample areas include, but are not limited to smart hardware, software design, smart computing technologies, intelligent communications and networking, web and informatics and computational sciences.

A mischievous bachelor beguiles three children in a railway carriage with a story about a good girl who comes to a horrible end.

Following the collapse of the Soviet Union, the independent republics of central Asia enjoy a greater degree of autonomy, but are faced with a range of complex social, political and economic problems. This book addresses these problems.

A valuable guide for new and experienced readers, featuring the complex and massive world of IoT and IoT-based solutions.

Reasoning enhances the logical thinking skills. It determines one's aptitude which is why many competitive examinations ask questions from it. Be it, banking, SSC, railway, IAS/PCS, or any other government recruitment exams, candidates have to score better in Reasoning Test which is a hard nut to crack for many. How to Crack Test of Reasoning is a perfect study resource to learn the problem solving skills of reasoning to make a proper preparation for the competitive examinations. It has been revised carefully according to the latest examination pattern and is divided into key chapters of Verbal Reasoning, Analytical Reasoning, and Non-Verbal Reasoning. It facilitates a complete coverage of the theory followed by exercises graded into base level and expert level for self-evaluation. Each chapter covers the latest exam questions. Also, it carries more than 2500 objective questions as a whole to boost the preparation level. Written in an easy to read manner and incorporated with complete study material, it is an amazing book to climb the ladder of success in your forthcoming competitive exams. TOC Verbal Reasoning, Analytical Reasoning, Non-Verbal Reasoning

Today's youth face many risks, including drug abuse, violence, and HIV/AIDS. Responding to these risks before they become problems can be difficult. One of the goals of writing this book is to help the public understand the causes of drug abuse and to prevent its onset. Drug abuse has serious consequences in our homes, schools, and communities. From this book's perspective, the use of all illicit drugs and the inappropriate use of illicit drugs are considered drug abuse. Prevention science has made great progress in recent years. Many interventions are being tested in "real-world" settings, so they can be more easily adapted for community use. Scientists are studying a broader range of populations and topics. They have identified, for example, effective interventions with younger populations to help prevent risk behaviors before drug abuse occurs. Researchers are also studying older teens, which are already using drugs to find ways to prevent further abuse or addiction. Practical issues, such as cost-benefit analyses, are being studied. Presenting these findings to the public through this book is the most important responsibilities. I am pleased to offer this

First edition of the publication, DRUG ABUSE - PROBLEM MANAGEMENT AND PREVENTION First Edition. The first edition offers updated principles, new questions and answers, new program information, and expanded references. This edition summarizes sections of the guide for community use. This book is designed as per the latest syllabus of Guru Nanak Dev University Amritsar. I hope you will find this First edition useful and helpful. Prof. Punit Puripuripunit@gmail.com

This comprehensive reading text was designed especially for academically and professionally oriented students. The activities provide a wide variety of practice opportunities.

In a revised edition of his original book, J. S. Grewal brings the history of the Sikhs from its beginnings in the time of Guru Nanak, the founder of Sikhism, right up to the present day. Against the background of the history of the Punjab, the volume surveys the changing pattern of human settlements in the region until the fifteenth century and the emergence of the Punjabi language as the basis of regional articulation. Subsequent chapters explore the life and beliefs of Guru Nanak, the development of his ideas by his successors and the growth of his following. The book offers a comprehensive statement on one of the largest and most important communities in India today.

This is an adaptation of Essential Grammar in Use for Thai elementary learners.

This comprehensive book is specially developed for the M.A. Political Science candidates of Delhi University for Entrance Test. This book includes Study Material, Previous Paper (Solved) for the purpose of practice of questions based on the latest pattern of the examination. Detailed Explanatory Answers have also been provided for the selected questions for Better Understanding of the Candidates.

An important objective of the study of mathematics is to analyze and visualize phenomena of nature and real world problems for its proper understanding. Gradually, it is also becoming the language of modern financial instruments. To project some of these developments, the conference was planned under the joint auspices of the Indian Society of Industrial and Applied Mathematics (ISIAM) and Guru Nanak Dev University (G. N. D. U.), Amritsar, India. Dr. Pamy Manchanda, chairperson of Mathematics Department, G. N. D. U. , was appointed the organizing secretary and an organizing committee was constituted. The Conference was scheduled in World Mathematics Year 2000 but, due one reason or the other, it could be held during 22. -25. January 2001. However, keeping in view the suggestion of the International Mathematics union, we organized two symposia, Role of Mathematics in industrial development and vice-versa and How image of Mathematics can be improved in public. These two symposia aroused great interest among the participants and almost everyone participated in the deliberations. The discussion in these two themes could be summarized in the lengthy following lines: "Tradition of working in isolation is a barrier for interaction with the workers in the other fields of science and engineering, what to talk of non-academic areas, specially the private sector of finance and industry. Therefore, it is essential to build bridges within institutions and between institutions.

Solid State Materials have been gaining importance in recent times especially in the context of devices which can provide necessary infrastructure and flexibility for various human endeavours. In this context, microwave materials have a unique place especially in various device applications as well as in communication networks. Various technological developments are taking place in fine-tuning these materials for specific applications and in fixed band frequencies. Though the science and technology of these materials has reached an advanced stage, systematic attempts are still lacking in bringing all available information in a single source. The present. volume is a modest attempt in this direction, though it cannot be considered to be the one that satisfies completely desired components

and information required. The editors have enlisted certain articles of interest in this area, especially those dealing with measurement techniques, chapters dealing with materials like Ferrites, YIGs, Radome and high Tc superconducting materials which are of current interest. The editors are fully aware that the coverages are not comprehensive either in scope or in depth. The purpose of this volume is only to acquaint oneself of certain aspects of a fast developing field. The editors will be grateful for any comments or suggestions in this endeavour. V. R. K. MURTHY S. SUNDARAM B. VISWANATHAN Contents Preface v 1. Materials and Processes in Microwave Integrated Circuits Fabrication 1 T. Rs. Reddy 2. Materials and Technology for Microwave Integrated Circuits 30 Bharathi Bhat and Shiban K. Koul 3.

A collection of artworks containing the different aspects of asexual, aromantic and other a-spec identities within the LGBTQ* community as a whole, shown in the form of abstract and aesthetic art pieces.

This volume is the second part of a four-volume set (CCIS 190, CCIS 191, CCIS 192, CCIS 193), which constitutes the refereed proceedings of the First International Conference on Computing and Communications, ACC 2011, held in Kochi, India, in July 2011. The 72 revised full papers presented in this volume were carefully reviewed and selected from a large number of submissions. The papers are organized in topical sections on database and information systems; distributed software development; human computer interaction and interface; ICT; internet and Web computing; mobile computing; multi agent systems; multimedia and video systems; parallel and distributed algorithms; security, trust and privacy.

High School English Grammar & Composition provides ample guidance and practice in sentence building, correct usage, comprehension, composition and other allied areas so as to equip the learners with the ability to communicate effectively in English.

Unbridled urbanization and development of natural land resources has led to the degradation of our surrounding environment. The air that we breathe, the water we drink and the food we eat is at risk of being contaminated with a plethora of chemical pollutants, some of them being potentially carcinogenic. This presents a challenge to human health. This book attempts to address this challenge in two parts which represent two different approaches. The first part of the book summarizes the alarming effects of environmental contaminants. Various studies depicting the direct relationship of environmental contaminants with cancer incidence have been referenced. Scientific studies have established an inverse relation between cancer and ingestion of dietary phytoconstituents (phytochemicals) in the form of fruits, vegetables and botanical herbs. Plant products as dietary supplements can suppress contaminant toxicity by regulating the resulting reactive species and also by assisting their bodily excretion through Phase 1 and Phase 2 enzyme metabolism. The second part of the book, shifts focus to phytoconstituents which, if included in diet, can prevent the harmful effects of pollutants. The text references numerous studies showing the anti-mutagenic, anti-genotoxic and anti-carcinogenic potential of many plant products. The combination of information about contemporary issues of carcinogenic contaminants in the environment coupled with the references to relevant studies in this handbook will enlighten readers studying courses in environmental chemistry, toxicology, botany, and ecology about environmental toxins and help them understand specific dietary measures known to reduce the toxic impact. Researchers in the field of nutrition can also benefit from the information provided.

The Importance Of Environmental Studies Cannot Be Disputed Since The Need For Sustainable Development Is A Key To The Future Of Mankind. Recognising This, The Honourable Supreme Court Of India Directed The Ugc To Introduce A Basic Course On Environmental Education For Undergraduate Courses In All Disciplines, To Be Implemented

By Every University In The Country. Accordingly, The Ugc Constituted An Expert Committee To Formulate A Six-Month Core Module Syllabus For Environmental Studies. This Textbook Is The Outcome Of The Ugc S Efforts And Has Been Prepared As Per The Syllabus. It Is Designed To Bring About An Awareness On A Variety Of Environmental Concerns. It Attempts To Create A Pro-Environmental Attitude And A Behavioural Pattern In Society That Is Based On Creating Sustainable Lifestyles And A New Ethic Towards Conservation. This Textbook Stresses On A Balanced View Of Issues That Affect Our Daily Lives. These Issues Are Related To The Conflict Between Existing `Development Strategies And The Need For `Conservation . It Not Only Makes The Student Better Informed On These Concerns, But Is Expected To Lead The Student Towards Positive Action To Improve The Environment. Based On A Multidisciplinary Approach That Brings About An Appreciation Of The Natural World And Human Impact On Its Integrity, This Textbook Seeks Practical Answers To Make Human Civilization Sustainable On The Earth S Finite Resources. Attractively Priced At Rupees One Hundred And Fifteen Only, This Textbook Covers The Syllabus As Structured By The Ugc, Divided Into 8 Units And 50 Lectures. The First 7 Units, Which Cover 45 Lectures Are Classroom Teaching-Based, And Enhance Knowledge Skills And Attitude To Environment. Unit 8 Is Based On Field Activities To Be Covered In 5 Lecture Hours And Would Provide Students With First Hand Knowledge On Various Local Environmental Issues.

Mastering previous years' papers of CLAT, AILET, PU and DU is a sure-shot method of ensuring better performance in the actual examination. These previous years papers will acquaint students with all the aspects of the examination along with the changing trends, patterns and style. Section - wise detailed Analysis of previous years question papers of CLAT and AILET will introduce students to the core components of the papers, their weightage, varying trends and patterns over the years. Features: focused on all key examination - CLAT, AILET, PU, DU, HPU, set topic-wise questions from the past 12 years' (2008 to 2019) section wise detailed Analysis of previous years question papers of CLAT and AILET to understand - weightage, varying trends and patterns over the year special emphasis on legal Aptitude section of various examination Table of Contents: the present fourth edition provides a comprehensive set of 54 papers from CLAT, AILET, PU, DU. The book proves to be a one-stop solution to master all key examination patterns with a coverage of more than 6000+ Practice questions with answer key and few OMR sheets. Practicing these questions will help student to assess their preparation before they write the real-time examination.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Web Technologies: A Computer Science Perspective is ideal for courses in Web-based Systems (aka Web/Internet Programming/Systems) in Computer Science, MIS, and IT departments. This text introduces the key technologies that have been developed as part of the birth and maturation of the World Wide Web. It provides a consistent, in-depth treatment of technologies that are unlikely to receive detailed coverage in non-Web computer science courses. Students will find an ongoing case study that integrates a wide spectrum of Web technologies, guidance on setting up their own software environments, and a variety of exercises and project assignments.

Software -- Operating Systems.

Sustainability Marketing: New directions and practices explores how a customer's desire for sustainable products can form a part of new marketing strategies. Sustainability Marketing provides solutions to scholars, marketers and decision makers aiming to gain an advantage in businesses where sustainability is increasingly prioritised.

Study Writing is for students at intermediate level and above who need to develop their writing skills and write better academic essays, projects, research articles or theses. Study Writing encourages students to develop their writing strategies, seek feedback on their own writing and analyse expert writers' texts in order to become more reflective and effective

Get Free Paper Pattern Gndu

writers. Study Writing helps learners to write more effectively by: - introducing key concepts in academic writing such as the role of generalizations and definitions and the application of principles like the Clarity Principle and the Honesty Principle - exploring the use of information structures, including those used to develop and present an argument - familiarizing learners with the characteristics of academic genre - analysing the grammar and vocabulary associated with these aspects of academic writing - offering practice in processes and strategies known to help learners improve their academic writing. The book contains a full answer key and helpful teaching notes. This second edition has been updated to reflect modern thinking in the teaching of writing, to include more recent texts in the disciplines presented and to take account of new media and the growth of online resources.

Based entirely on real spoken and written English, this practice grammar analyses why people choose certain structures in situations and the effect of those choices on meaning.
