In 1984 Peugeot launched the 205 1.6 GTI, which not only changed Peugeot's image forever, but also set a new benchmark for 'hot hatches' eight years after the legendary Golf GTI had raised the bar. Weak points, rust traps, and potential mechanical defects are all laid bare by an expert for the would be buyer. Clear 205-specific photos illustrate problem areas and good points too, as well as model variations. The author also embraces customized and mechanically modified cars. A unique points scoring system lets you evaluate your potential purchase like and expert and also to

determine which price category it should fall into. With both mileage and particularly condition having a marked affect on potential prices, the author gives sound advice on what is worth restoring and what, however tempting, is likely to cost a new owner an unrecoverable fortune. Weak points, rust traps, and potential mechanical defects are laid out for the reader, with clear 205-specific guidelines offered on the practicalities of rectifying such problems.

*It started with the Storms. The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled. The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting. Welcome to the Arizona Reformed Theocracy, otherwise called The Zona. Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen. But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?*
