Social skills are the rules, customs, and abilities that guide our interactions with other people and the world around us. In general, people tend to "pick up" social skills in the same way they learn language skills: naturally and easily. Over time they build a social "map" of how to act in situations and with others.

[Social Economics Definition](#)

In social science, a social relation or social interaction is any relationship between two or more individuals. Social relations derived from individual agency form the basis of social structure and the basic object for analysis by social scientists. Fundamental inquiries into the nature of social relations feature in the work of sociologists such as Max Weber in his theory of social action.
