This coursebook is divided into 14 units with a language review at the end of each unit. Authentic texts, motivating topics and fun communication activities engage students of different ages and an extensive writing reference section includes model answers and develops writing skills.

In this text, particular focus is given to functional language, with units on areas such as greetings, excuses, directions and descriptions, agreeing and disagreeing. This gives students a wider view of grammar and vocabulary in context in a variety of immediately useful everyday situations.

Combines systematic training in exam techniques and thorough development of advanced level language skills.

Spotlight on Advanced is a comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the

revised exam. An exciting new feature of this revised edition is the Ideas Generator. Test takers need to generate ideas to pass the Speaking and Writing papers of the exam. The Ideas Generator uses National Geographic videos to stimulate students' interest in common exam topics, help them build ideas about these topics and gather the language they need to effectively write or speak about them. After each video lesson students will have a bank of ideas, functional language and vocabulary tied to eight topics that commonly appear in the exam. One of the most difficult parts of the exam for students is the Speaking Test. The Speaking Test videos and worksheets will prepare students by getting them to engage with simulations of all four parts of the Speaking test.

Third edition of the best-selling Cambridge English: First (FCE) course. The Student's Book contains fresh, updated texts and artwork that provide solid language development, lively class discussion and training in exams skills. The 24 topic-based units include examples from the Cambridge English Corpus to highlight common learner errors while vocabulary sections informed by the English Vocabulary Profile ensure that students are learning the most useful language required at this level. A phrasal verb list provides a handy reference for students. The interactive CD-ROM provides comprehensive extra practice of the language and topics covered in the book.

Spotlight on Writing offers teachers a wide variety of topics and activities to stimulate, engage, challenge, entertain and extend all pupils' writing skills. This extremely practical resource provides busy teachers and teaching assistants with a collection of worksheets that can be used as instant, educationally appropriate learning activities written specifically with the inclusive classroom in mind. The wide variety of exercises encourages pupils to think about writing and to develop skills in writing facts and information, creative writing and editing, whilst building confidence and motivation. Teachers can use this book to develop a flexible inclusive approach, comprising individualised materials and opportunities for extended practice. All the books in this series: Promote effective intervention and inclusion strategies for teachers and teaching assistants Provide materials that are solidly grounded in an understanding of how children learn and the particular difficulties of children with special needs. Stimulate discussion and interaction Can be used as part of an individual or small group learning programme for a child with special needs Provide 'whole class' materials that can also engage older children or those with a higher level of achievement Offer teachers quick, fun activities that never require additional resources, special materials or preparation. Spotlight on Writing is an essential tool for any teacher striving to offer every pupil opportunities to maximise their own potential and develop strong writing skills.

Cambridge English Proficiency 2 contains four complete and authentic examination papers for Cambridge English: Proficiency, also known as Cambridge Certificate of Proficiency in English (CPE). This collection of examination papers provides the most authentic exam preparation available. These examination papers allow candidates to familiarise themselves with the content and format of the exam and to practise useful examination techniques. Audio CDs containing the exam Listening material, a Student's Book with answers, and a Student's Book with answers with downloadable Audio are available separately.

Education, which has been at the heart of the Middle East and North Africa (MENA) region's history and civilizations for centuries, has a large untapped potential to contribute to human capital, well-being, and wealth. The region has invested heavily in education for decades, but it has not been able to reap the benefits of its investments. Despite a series of reforms, MENA has remained stuck in a low-learning, low-skills level. *Expectations and Aspirations: A New Framework for Education in the Middle East and North Africa* identifies four key sets of tensions that are holding back education in the region: credentials and skills, discipline and inquiry, control and autonomy, and tradition and modernity. These tensions are shaped by society and are reflected in classrooms. If they are not addressed, MENA will continue to operate at a level below its potential. This report outlines a new framework with a three-pronged approach that can help address these tensions and unleash the potential of education in MENA:

- A concerted push for learning that starts early for all children regardless of background, with qualified and motivated educators, and that leverages technology, uses modern approaches, and monitors learning outcomes
- A stronger pull for skills by all stakeholders in the labor market and society that involves coordinated multisystem reforms within and beyond the education system
- A new pact for education at the national level with a unified vision, shared responsibilities, and accountabilities.

Education is not just the responsibility of the education system—it is everyone's business. The push, pull, and pact framework offers an opportunity for MENA to move forward to reclaim its heritage of a learned region and to meet the expectations and aspirations of its people. The current situation in MENA requires a renewed focus on education, not just as a national priority for economic growth and social development, but as a national emergency for stability, peace, and prosperity.

This pack consists of the Student's Book with answers with CD-ROM and Class Audio CDs. The Student's Book fully prepares students to tackle each part of every exam paper. Unique grammar and vocabulary exercises train students to avoid common mistakes. The interactive CD-ROM provides comprehensive extra practice of the language and topics covered in the book and supports mixed ability focusing on students' own particular areas of difficulty. The Class Audio CDs contain the recordings for the listening exercises in the Student's Book. A full practice test is available online for teachers to access.

Spotlight on Modern Transformer Design introduces a novel approach to transformer design using artificial intelligence (AI) techniques in combination with finite element method (FEM). Today, AI is widely used for modeling nonlinear and large-scale systems, especially when explicit mathematical models are difficult to obtain or completely lacking. Moreover, AI is computationally efficient in solving hard optimization problems. Many numerical examples throughout the book illustrate the application of the techniques discussed to a variety of real-life transformer design problems, including:

- problems relating to the prediction of no-load losses;
- winding material selection;
- transformer design optimisation;
- and transformer selection.

Spotlight on Modern Transformer Design is a valuable learning tool for advanced undergraduate and graduate students, as well as researchers and power engineering professionals working in electric utilities and industries, public authorities, and design offices.

Fluid Dynamics and Heat Transfer held recently at The Pennsylvania State University, University Park—provides authoritative and conclusive research results as well as new insights into complex flow features found in the turbomachinery used for propulsion, power, and industrial applications. Explaining in detail compressors, heat transfer fields in turbines, computational fluid dynamics, and unsteady flows, *Turbomachinery Fluid Dynamics and Heat Transfer* covers: Mixing mechanisms, annulus wall boundary layers, and the flow field in transonic turbocompressors The numerical implementation of turbulence models in a computer code Secondary flows, film cooling, and thermal turbulence modeling The visualization method of modeling using liquid crystals Innovative techniques in the computational modeling of compressor and turbine flows measurement in unsteady flows as well as axial flows and compressor noise generation And much more Generously illustrated and containing key bibliographic citations, *Turbomachinery Fluid Dynamics and Heat Transfer* is an indispensable resource for mechanical, design, aerospace, marine, manufacturing, materials, industrial, and reliability engineers; and upper-level undergraduate and graduate students in these disciplines.

'It's not just the body that changes: Fashions and hairstyles evolve; pets come and go; typewriters, analog clocks, and telephones with cords disappear; and finally, film gives way to digital and the computer replaces the darkroom. While *Weathering Time* is a personal archive, and I am mining the archive to address issues of the female body, the family snapshot and loss, I am also interested in producing images that suggest some of the experiences of my generation. Indeed, the photographs underscore the cultural, technological, and physical changes that have occurred over the past thirty-five years—from my youth to the dawn of my old age.' Nancy Floyd
