Jan 07, 2003 · Science and art naturally overlap. Both are a means of investigation. Both involve ideas, theories, and hypotheses that are tested in places where mind and hand come together—the laboratory and studio. Artists, like scientists, study—materials, people, culture, history, religion, mythology— and learn to transform information into something else.

Science is more important than art. Yes i think because of science we are standing here and have comfortable life art is important but humans have arts in previous century and today's life have been created by science. For example we have painting and music in 19 or 18 century but science improve our quality of living and open new doors to human.
