Jan 07, 2003 · Science and art naturally overlap. Both are a means of investigation. Both involve ideas, theories, and hypotheses that are tested in places where mind and hand come together—the laboratory and studio. Artists, like scientists, study—materials, people, culture, history, religion, mythology—and learn to transform information into something else.

The Waterhouse Natural Science Art Prize commemorates the birth of the South Australian Museum's first curator, Frederick George Waterhouse. This biennial prize provides an opportunity for artists to investigate the world around them and present their perspectives on natural science. It encourages artists to make a statement about the scientific issues facing our planet, and ...

Is Medicine An Art? When Decyk (1996) was delivering his presidential address in Leonardo's workshop on The fine art of teaching philosophy, he said sometimes people opined that teaching philosophy was an art. In order to explain it, he gave an example of distinguishing the art of medicine from its science cited commonly by people: "Sometimes people say, 'The practice of ...

Visit the iconic cultural attraction that is the world's first art-science museum, featuring major exhibitions that blend art, science, culture, and technology. Admire the architecture of the building that is evocative of a lotus flower and allows for the harvesting of rainwater which is used sustainably by the museum.

and I continue to be inspired by the dedication and commitment of my students.

Bibliography. This project is based on the Art Bot project from this book: Ceceri, K. (2012). How to Build an Art Bot. Robotics: Discover the Science and Technology of the Future with 20 Projects. Nomad Press. If you want to learn more about some of the concepts in this project, like circuits and vibrational motion, check out these references:

Science is more important than art. Yes I think because of science we are standing here and have comfortable life art is important but humans have arts in previous century and today's life have been created by science. For example we have painting and music in 19 or 18 century but science improve our quality of living and open new doors to human.
