365 Sports Cars You Must Drive A simple yet revolutionary approach to improving your body's oxygen use, increasing your health, weight loss, and sports performance—whether you're a recovering couch potato or an Ironman triathlon champion. With a foreword by New York Times bestselling author Dr. Joseph Mercola. Achieve more with less effort: The secret to weight loss, fitness, and wellness lies in the most basic overlooked function of your body—how you breathe. One of the biggest obstacles to better health and fitness is a rarely identified problem: over-breathing. We often take many more breaths than we need—without realizing it—contributing to poor health and fitness, including a host of disorders, from anxiety and asthma to insomnia and heart problems. In The Oxygen Advantage, the man who has trained over 5,000 people—including Olympic and professional athletes—in reduced breathing exercises now shares his scientifically validated techniques to help you breathe more efficiently. Patrick McKeown teaches you the fundamental relationship between oxygen and the body, then gets you started with the Body Oxygen Level Test (BOLT) to determine how efficiently your body uses oxygen. He then shows you how to increase your BOLT score by using light breathing exercises and learning how to simulate high altitude training, a technique used by Navy SEALs and professional athletes to help increase endurance, weight loss, and vital red blood cells to dramatically improve cardio-fitness. Following his program, even the most out of shape person (including those with chronic respiratory conditions such as asthma) can climb stairs, run for a bus, or play soccer without gasping for air, and everyone can achieve: Easy weight loss and weight maintenance Improved sleep and energy Increased concentration Reduced

Across the River On the west bank of the Mississippi lies the New Orleans neighborhood of Algiers. Short on hope but big on dreams, its most poor and marginalized residents find joy on Friday nights when the Cougars of Edna Karr High School take the field. For years, this football program has brought glory to Algiers, winning three consecutive state championships and sending dozens of young men to college on football scholarships. Although he is preparing for a fourth title, head coach Brice Brown is focused on something else: keeping his players alive. An epidemic of gun violence plagues New Orleans and its surrounding communities and has claimed many innocent lives, including Brown's former star quarterback, Tollette "Tonka" George, shot near a local gas station. In *Across the River*, award-winning sports journalist Kent Babb follows the Karr football team through its 2019 season as Brown and his team—perhaps the scrappiest and most rebellious group in the program's history—vie to again succeed on and off the field. What is sure to be a classic work of sports journalism, *Across the River* is a necessary invitation into the serious realities of young athletes in struggling neighborhoods: gentrification, eviction, mental health issues, the drug trade, and gun violence. It offers a rich and unflinching portrait of a coach, his players, and the West Bank, a community where it's difficult—but not impossible—to rise above the chaos, discover purpose, and find a way out.
