Hong Kong Shares the author's eyewitness accounts of such historical moments as the first successful ascent of Mount Everest, the Eichmann trial, the fall of the Berlin Wall, and the relinquishment of Hong Kong, in a collection of writings that spans the latter half of the twentieth century. Reprint.

Conundrum In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His reacquaintance with Venice, a city he loved, provided the inspiration for *Across the River and into the Trees*, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant, bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, *Across the River and into the Trees* stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in *The New York Times* Book Review to call him "the most important author since Shakespeare."

A *Writer's World* One hundred years ago, Trieste was the chief seaport of the entire Austro-Hungarian empire, but today many people have no idea where it is. This fascinating Italian city on the Adriatic, bordering the former Yugoslavia, has always tantalized Jan Morris with its moodiness and melancholy. She has chosen it as the subject of this, her final work, because it was the first city she knew as an adult -- initially as a young soldier at the end of World War II, and later as an elderly woman. This is not only her last book, but in many ways her most complex as well, for Trieste has come to represent her own life with all its hopes, disillusionments, loves and memories. Jan Morris evokes Trieste's modern history -- from the long period of wealth and stability under the Habsburgs, through the ambiguities of Fas-cism and the hardships of the Cold War. She has been going to Trieste for more than half a century and has come to see herself reflected in it: not just her interests and preoccupations -- cities, empires, ships and animals -- but her intimate convictions about such matters as patriotism, sex, civility and kindness. Trieste and the Meaning of Nowhere is the culmination of a singular career.

*The World* The great travel writer Jan Morris was born James Morris. James Morris distinguished himself in the British military, became a successful and physically daring reporter, climbed mountains, crossed deserts, and established a reputation as a historian of the British empire. He was happily married, with several children. To all appearances, he was not only a man, but a man's man. Except that appearances, as James Morris had known from early childhood, can be deeply misleading. James Morris had known all his conscious life that at heart he was a woman. Conundrum, one of the earliest books to discuss transsexuality with honesty and without prurience, tells the story of James Morris--s hidden life and how he decided to bring it into the open, as he resolved first on a hormone treatment and, second, on risky experimental surgery that would turn him into the woman that he truly was.

*Thinking Again: A Diary* "Morris's rendition of the city's 1945 moods conveys what it felt like to live in New York at that time A book crammed with details that bring life again to a city that glows in one's memory." -- *New York Times* Book Review In 1945, New York City stood at the pinnacle of its cultural and economic power. Never again would the city possess the unique mixture of innocence and sophistication, romance and formality, generosity and confidence which characterized it in this moment of triumph. In Manhattan '45, acclaimed travel writer and historian Jan Morris evokes the city in all its romantic grandeur. From its beguilingly idiosyncratic architectural style to its unmistakable slang, post-War New York springs to life through Morris's brisk, affectionate prose. Morris visits Wall Street, Harlem, Greenwich Village, Chinatown, and the Lower East Side. She rides the trolleys, the El, the Hudson River ferries, and the Twentieth Century Limited. She dines at Schrafft's and Le Pavillon, drinks ale at McSorley's Saloon, sips Manhattans at the Manhattan Club, and spots celebrities at El Morocco. She meets Fiorella La Guardia, Robert Moses, Leo Durocher, I. B. Singer, and Dizzy Gillespie. And she tours the tenements of Hell's Kitchen and the Gashouse district, as well as the Foundling Hospital where the crushing realities of poverty belie the unchallenged exuberance of the age. Taking into account both Social Register and slum, Manhattan '45 celebrates New York's Golden Age as a place where, for one unrepeatable moment in history, anything seemed possible. "Vivid descriptions and diverting anecdotes of life make for a fascinating and enjoyable tour. Morris conveys the excitement of being in New York City as it awakens to a new age in a book that will absorb all lovers of Manhattan." -- *Library Journal* "Accomplished with a surprising feeling of immediacy Morris's unabashedly sentimental journey is narrated in a breezy, sometimes gushing style, yet maintains a high level of accuracy There are intriguing bits of information and insight that spotlight aspects of the city we may have taken for granted Manhattan '45 provides some food for thought, some fine writing, but mostly, just fun." -- *Christian Science Monitor*

*The Routledge Companion to Italian Fascist Architecture* 'Exquisite, powerful . . . I can think of no better way of commemorating British exploration's culminating triumph.' Simon Winchester? Coronation Everest offers a breathtakingly intimate evocation of the most famous of all mountaineering exploits - and of perhaps the last great old-fashioned Fleet Street scoop. 'It was Morris who broke the news that a British-led expedition had conquered Mount Everest the day before the Queen's coronation in 1953 . . . Allied to physical courage in getting down the mountain and a dogged resourcefulness in getting the news home, Morris scooped the world and was launched on one of the most remarkable literary careers in the second half of the twentieth century.' Guardian Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Venice, Coronation Everest, Hong Kong, Spain, Manhattan '45, A Writer's World and the Pax Britannica Trilogy. Hav, her novel, was shortlisted for the Booker Prize and the Arthur C. Clarke Award.

*Trieste and the Meaning of Nowhere* Uses the history of Trieste and the Italo-Yugoslav border to examine how representations of difference have affected the politics of sovereignty during the twentieth century.

*Journeys* Jan Morris delivers her final volume, brimming with reminiscences, meditations on daily life, and mini-essays on everything from maturity to whistling to Princess Diana. Not so long ago, feeling intimations of mortality, Jan Morris embarked on a wholly novel literary enterprise. What began as a series of high-minded letters to her late daughter—in the style of Lord Chesterfield addressing his son—quickly transformed itself into a potpourri of mini-essays and vibrant reminiscences, organized around experiences both majestic and mundane, from traveling the world with her lifelong partner, Elizabeth, to sneezing and kissing and simply growing old. So Allegorizings came to be, and so Morris decided that it should only be published upon her death, not because she had anything to hide but, merely, in parting. Featuring essays largely written in the early twenty-first century, *Allegorizings* reflects, above all, Morris's steadfast conviction that nothing is only what it seems. In fact, she observes, everything is allegory. Indeed, in Morris's telling, even life—the whole conundrum of existence—is one long, majestically impenetrable allegory. Taking us from the separatist hippie colony of Bolinas, California, to her home country of Wales, and introducing us to Nepalese Sherpas and elderly cruise-goers alike, Morris follows the throughline of allegory throughout her works. In one essay, she lambasts the joylessness of maturity (“Maturity! Did ever a heart thrill to the sound of it, still less the meaning?”) and in another, decries the nonsense of nationality. With characteristic verve, she offers odes to whistling and cursing, cats, and exclamation points. Morris's travels anchor the collection, as she revisits the iconic settings of her previous works. We join her aboard the storied Orient Express, as well as tube trains passing through the purlieus of London. So too, we hike the foothills of the Himalayas—where Morris burst onto scene with her on-the-spot reportage of the first ascent of Everest—and reflect on the picaresque allure of Tournus, a dichotomized town in France where one France, bearing all the vestiges of privilege, seems to kiss another. Intimate and luminously wise, *Allegorizings* is as much a testament to the virtues of embracing life as it is a testament to its charming, indignant, and ever-surprising author. In her final work, Morris's writing is as erudite as ever, conveying a generosity of spirit “flavored by well-earned crankiness” (*Vox*). Though newly bereft of her company, readers will be reminded what “a good, wise, and witty companion” (Alexander McCall Smith) Morris has been to so many, for so long.

*Illustrated Book of Trees* In a wonderfully evocative collection of her travel writing and reportage from over five decades, Jan Morris - a constant traveller - has produced a unique portrait of the twentieth century. Ranging from New York to Venice, Sydney to Berlin, and the Middle East to South Africa, Jan Morris was a witness to such seminal moments as the Eichmann trial, the first ascent of Everest, the fall of the Berlin Wall and the handover of Hong Kong. Offering a tremendously perceptive and highly personal view of the world, she is as much concerned with conveying the 'feel' of these moments as the events themselves. And, as ever, she displays her unique and inimitable literary style, at once funny, wise and sad. Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Venice, Coronation Everest, Hong Kong, Spain, Manhattan '45, A Writer's World and the Pax Britannica Trilogy. *Hav*, her novel, was shortlisted for the Booker Prize and the Arthur C. Clarke Award. 'A glorious compendium of adventure and wisdom' Pico Iyer

*Last Letters* from *Hav* A book for lovers of all things Italian -- an homage to the city of Trieste. This history-drenched city on the Adriatic has always tantalized Jan Morris with its moodiness and changeability. After visiting Trieste for more than half a century, she has come to see it as a touchstone for her interests and preoccupations: cities, seas, empires. It has even come to reflect her own life in its loves, disillusionments, and memories. Her meditation on Trieste is characteristically layered with history and glows with stories of famous visitors from James Joyce to Sigmund Freud. A lyrical travelogue, *Trieste and the Meaning of Nowhere* is also superb cultural history and the culmination of a singular career -- “an elegant and bittersweet farewell” (*Boston Globe*).

*Venice* Jan Morris, one of “Britain’s greatest living writers” (*Times*, UK), returns with this whimsical yet deeply affecting volume on life as a redoubtable nonagenarian. The irrepressible Jan Morris—author of such classics as *Venice and Trieste*—is at it again: offering a vibrant set of reminiscences that so remind us “what a good, wise and witty companion Jan Morris has been for so many readers for so long” (Alexander McCall Smith, *New York Times Book Review*). “Like Michel de Montaigne” (Danny Heitman, *Wall Street Journal*), Morris waxes on the ironies of modern life in all their resonant glories and inevitable stupidities—from her daily exercise (a “statutory thousand paces of brisk walk”) to the troubles of Brexit; her enduring yet complicated love for America; and honest reflections on the vagaries and ailments of aging. Both intimate and luminously wise, *Thinking Again* is a testament to the virtues of embracing life, creativity, and, above all, kindness.

*A Sense of Place* Superbly written articles about cities as different as Las Vegas and Stockholm, about journeys across Europe and China, and about “romantic re-visits” to such historic sites as the Acropolis and the Taj Mahal.

*Locke: Two Treatises of Government Riffing on cats and Brexit, the Royals and the annoyances of aging, the nonagenarian Jan Morris delights with her wickedly hilarious first-ever diary collection. Celebrated as the “greatest descriptive writer of her time” (Rebecca West), Jan Morris has been dazzling readers since she burst on the scene with her on-the-spot reportage of the first ascent of Everest in 1953. Now, the beloved ninety-two-year-old, author of classics such as Venice and Trieste, embarks on an entirely new literary enterprise—a collection of daily diaries, penned over the course of a single year. Ranging widely from the idyllic confines of her North Wales home, Morris offers diverse sallies on her preferred form of exercises (walking briskly), her frustration at not recognizing a certain melody humming in her head (Beethoven’s Pathétique, incidentally), her nostalgia for small-town America, as well as intimate glimpses into her home life. With insightful quips on world issues, including Britain’s “special relationship” with the United States and the #MeToo movement, In My Mind’s Eye will charm old and new Jan Morris fans alike.*

*Traveling Genius* Endearing, self-absorbed, seventeen-year-old Cécile is the very essence of untroubled amorality. Freed from the stifling constraints of boarding school, she joins her father—a handsome, still-young widower with a wandering eye—for a carefree, two-month summer vacation in a beautiful villa outside of Paris with his latest mistress, Elsa. Cécile cherishes the free-spirited moments she and her father share, while plotting her own sexual adventures with a “tall and almost beautiful” law student. But the arrival of her late mother’s best friend, Anne, intrudes upon a young girl’s pleasures. And when a relationship begins to develop between the adults, Cécile and her lover set in motion a plan to keep them apart with tragic, unexpected consequences. The internationally beloved story of a precocious teenager’s attempts to understand and control the world around her, *Françoise Sagan’s Bonjour Tristesse* is a beautifully composed, wonderfully ambiguous celebration of sexual liberation, at once sympathetic and powerfully unsparring.

*His Most Italian City Today*, nearly a century after the National Fascist Party came to power in Italy, questions about the built legacy of the regime provoke polemics among architects and scholars. Mussolini's government constructed thousands of new buildings across the Italian Peninsula and islands and in colonial territories. From hospitals, post offices and stadia to housing, summer camps, Fascist Party Headquarters, ceremonial spaces, roads, railways and bridges, the physical traces of the regime have a presence in nearly every Italian town. The Routledge Companion to Italian Fascist Architecture investigates what has become of the architectural and urban projects of Italian fascism, how sites have been transformed or adapted and what constitutes the meaning of these buildings and cities today. The essays include a rich array of new arguments by both senior and early career scholars from Italy and beyond. They examine the reception of fascist architecture through studies of destruction and adaptation, debates over reuse, artistic interventions and even routine daily practices, which may slowly alter collective understandings of such places. Paolo Portoghesi sheds light on the subject from his internal perspective, while Harald Bodenschatz situates Italy among period totalitarian authorities and their symbols across Europe. Section editors frame, synthesize and moderate essays that explore fascism's afterlife; how the physical legacy of the regime has been altered and preserved and what it means now. This critical history of interpretations of fascist-era architecture and urban projects broadens our understanding of the relationships among politics, identity, memory and place. This companion will be of interest to students and scholars in a range of fields, including Italian history, architectural history, cultural studies, visual sociology, political science and art history.

*The World of Venice* Originally published in 1960, this analysis of all of Locke's publications quickly became established as the standard edition of the Treatises as well as a work of political theory in its own right.

*Il Bel Centro* In the tiny borderlands of Istria and Italy, from the forests of Monte Nevoso, to the hidden valleys of the Tyrol, to a Trieste café, *Microcosms* pieces together a mosaic of stories - comic, tragic, picaresque, nostalgic - from life's minor characters. Their worlds might be small, but they are far from minimal: in them flashes the great, the meaningful, the unrepeatably significant of every existence.

*In My Mind's Eye: A Thought Diary* Explores the city's history, its blend of Eastern and Western traditions, and its hopes for the future as Hong Kong prepares to become a part of the People's Republic of China

*Bonjour Tristesse* A blend of impressionism, history, political interpretation, and travel writing, this book catches a number of places at specific moments: Watergate Washington, Delhi under a State of Emergency, Rhodesia on the eve of independence, Cairo during Israeli-Egyptian peace talks, and Panama during the United States Treaty debate. Shuttleing between London, Trieste, Istanbul, Los Angeles, and New York, Jan Morris makes an informed and perceptive guide.

*Trieste Describes* a city of the mind--*Hav*, a dying city with a fashionable old Russian colony, home to the troglodytic Kretevs, the site of the astonishing Roof Race, and the haven of literary visitors from Marco Polo to Freud

*Allegorizings* In this witty and warm-hearted memoir, Michelle Damiani tells the story of abandoning her fast-paced American days in favor of discovering the Italian secrets of food, community, and life. Along with her husband and three children, the author untangles bewildering Italian customs, delights in glorious regional cuisine (recipes included), and creates lasting friendships. From grandmothers eager to teach the ancient art of pasta making to bakers bagging bread in their underpants to butchers extolling the benefits of pork fat, *Il Bel Centro* is rich with captivating characters. Throw in clinking glasses of Umbrian red with the local communists, wandering into embarrassing linguistic blunders, getting called to the mayor's office, navigating a school system where corporal punishment is not off the table, and a village all-nighter of decorating cobblestone streets with flower petals, and you have all the ingredients for a spellbinding travel tale. Exquisitely observed, *Il Bel Centro* is an intimate and revelatory celebration of small town Italy, as well as a thoughtful look at raising a family in a new culture and a fascinating story of finding a home. Ultimately though, *IBC* is a story about how travel can change you when you're ready to let it. With laugh-out-loud situations and wanderlust-inspiring storytelling, *Il Bel Centro* is a joyous and life-affirming read that will have readers rushing to renew their passports. Fans of the beloved Santa Lucia novel series will thrill to find the inspiration for the characters of that fictional town in the pages of *Il Bel Centro*. "A magical read." "I absolutely couldn't get enough of this book." "I was instantly transported to Italy." "This is one of the most beautiful books I've ever read." "Could not put it down." "I just want more."

*The Problem of Trieste and the Italo-Yugoslav Border* Often hailed as one of the best travel books ever written, Venice is neither a guide nor a history book, but a beautifully written immersion in Venetian life and character, set against the background of the city's past. Analysing the particular temperament of Venetians, as well as its waterways, its architecture, its bridges, its tourists, its curiosities, its smells, sounds, lights and colours, there is scarcely a corner of Venice that Jan Morris has not investigated and brought vividly to life. Jan Morris first visited the city of Venice as young James Morris, during World War II. As she writes in the introduction, 'it is Venice seen through a particular pair of eyes at a particular moment - young eyes at that, responsive above all to the stimuli of youth.' Venice is an impassioned work on this magnificent but often maddening city. Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Sydney, Coronation Everest, Hong Kong, Spain and Manhattan '45. Since its first publication, Venice has appeared in many editions, won the W.H. Heinemann award and become an international bestseller. "The best book about Venice ever written" *Sunday Times* 'No sensible visitor should visit the place without it . . . Venice stands alone as the essential introduction, and as a work of literature in its own right.' *Observer*

*The Deep Europe has been widely acclaimed as among the finest achievements of 'one of our greatest living writers' (The Times). A personal appreciation, fuelled by five decades of journeying, this is Jan Morris at her best - at once magisterial and particular, whimsical and profound. It is a matchless portrait of a continent.*

*Manhattan '45 When we think about the process of European unification, our conversations inevitably ponder questions of economic cooperation and international politics. Salvatore Pappalardo offers a new and engaging perspective, arguing that the idea of European unity is also the product of a modern literary imagination. This book examines the idea of Europe in the modernist literature of primarily Robert Musil, Italo Svevo, and James Joyce (but also of Theodor Däubler and Srećko Kosovel), all authors who had a deep connection with the port city of Trieste. Writing after World War I, when the contested city joined Italy, these authors resisted the easy nostalgia of the postwar period, radically reimagining the origins of Europe in the Mediterranean culture of the Phoenicians, contrasting a 19th-century nationalist discourse that saw Europe as the heir of a Greek and Roman legacy. These writers saw the Adriatic city, a cosmopolitan bazaar under the Habsburg Empire, as a social laboratory of European integration. Modernism in Trieste seeks to fill a critical gap in the extant scholarship, securing the literary history of Trieste within the context of current research on Habsburg and Austrian literature.*

*The Venetian Empire In the summer of 1977, seventeen-year-old Mona Manoliu falls in love with Mihai, a green-eyed boy who lives in Brasov, the romantic mountain city where she spends her summers. But under the Ceausescu dictatorship, paranoia infects everyone; soon Mona begins to suspect that Mihai is part of the secret police. As food shortages worsen and her loved ones begin to disappear, Mona realizes that she too must leave. Over the next twenty years, she struggles to bury her longing for the past, yet she eventually finds herself compelled to return, determined to learn the truth about her one great love.*

*Trieste And The Meaning Of Nowhere "Traveling Genius surveys the half century of work by British writer Jan Morris, including more than fifty books and thousands of essays and reviews, from 1950s America via Oxford, Venice, Trieste, Sydney, and Hong Kong to her home in Wales. Internationally known as a travel writer, she has also distinguished herself across many other genres by writing history, autobiographies and biographies, and literary fiction and essays." "Existing accounts of Morris's work are largely confined to reviews and magazine essays, and often concentrate on James Morris's sex change and transformation into Jan Morris. This is of course significant to the writing, and some critics detect a change of tone and style afterward, but a detailed analysis of how her writing works has not yet been undertaken. In Traveling Genius, Gillian Fenwick fills that gap in the scholarship with the first study to explore the depths of Morris's complete body of work, utilizing close readings and archival research." --BOOK JACKET.*

*Trieste and Friuli An old Italian woman seeks a reunion with her son, fathered by an SS officer and taken away by German authorities 62 years ago while she remembers and discusses the atrocities committed in Northern Italy during World War II. 15,000 first printing.*

*Old Trieste Restaurant Cookbook Through an exploration of her country home in Wales, acclaimed travel writer Jan Morris discovers the heart of her fascinating country and what it means to be Welsh. Trefan Morys, Morris's home between the sea and mountains of the remote northwest corner of Wales, is the 18th-century stable block of her former family house nearby. Surrounding it are the fields and outbuildings, the mud, sheep, and cattle of a working Welsh farm. She regards this modest building not only as a reflection of herself and her life, but also as epitomizing the small and complex country of Wales, which has defied the world for centuries to preserve its own identity. Morris brilliantly meditates on the beams and stone walls of the house, its jumbled contents, its sounds and smells, its memories and inhabitants, and finally discovers the profoundest meanings of Welshness.*

*Destinations In A Sense of Place, journalist/travel writer Michael Shapiro goes on a pilgrimage to visit the world's great travel writers on their home turf to get their views on their careers, the writer's craft, and most importantly, why they chose to live where they do and what that place means to them. The book chronicles a young writer's conversations with his heroes, writers he's read for years who inspired him both to pack his bags to travel and to pick up a pen and write. Michael skillfully coaxes a collective portrait through his interviews, allowing the authors to speak intimately about the writer's life, and how place influences their work and perceptions. In each chapter Michael sets the scene by describing the writer's surroundings, placing the reader squarely in the locale, whether it be Simon Winchester's Massachusetts, Redmond O'Hanlon's London, or Frances Mayes's Tuscany. He then lets the writer speak about life and the world, and through quiet probing draws out fascinating commentary from these remarkable people. For Michael it's a dream come true, to meet his mentors; for readers, it's an engaging window onto the twin landscapes of great travel writers and the world in which they live.*

*Europe If you are planning to tour Europe, you should consider the Friuli-Venezia Giulia region of northeastern Italy, bordering on Austria and Slovenia. For simplicity's sake, we abbreviate the region's full name to Friuli. This lovely region may be an ideal vacation spot. You can get classic Italian food and other specialties, and wash it all down with excellent local wine. While Friuli is by no means undiscovered by tourists, you usually won't be fighting crowds to see what you want. Like most regions of Italy, it has belonged to many nations over the years. The area remains multicultural, an exceptional mixture of Italian, Austrian, and Slavic influences. Trieste, with a population of about two hundred thousand, is the region's largest city. Trieste was definitely part and parcel of Mittel Europa (Central Europe) as the principal port of the Austro-Hungarian Empire. Trieste only joined Italy in 1954. One can easily imagine that with such a unique history Trieste is quite a unique place to visit. It is. As soon as you arrive in Trieste, you'll notice its ubiquitous coffee houses. Among the best known is the Antico Caffè San Marco. As befits its internationality, Trieste is home to a variety of historic religious buildings representing many faiths. The Serbian-Orthodox church of the Holy Trinity and Saint Spyridon, which was built in the mid-Nineteenth Century shows strong Byzantine influence. Go inside for a look at its beautiful frescoes and icons. The Israelite Temple of Trieste, just over a century old, is Italy's largest synagogue. *A Writer's House in Wales A delightful and hilarious companion for anyone taking a trip and an indispensable work for any fan of Jan Morris. With her travel chronicles unparalleled in twentieth-century literature, Jan Morris's legendary books on Venice, Manhattan, and Trieste have made her one of our most beloved writers. Now reflecting back on over half a century, Morris has decided to write not about the destinations but about the people she has encountered. Whether writing as James or later as Jan, Morris introduces us to a panoply of memorable characters—the Sherpa guide who first scaled Mt. Everest, the lascivious Manhattan cabbie, and the proverbial spy in the raincoat. She provides insightful portraits of the famous, such as Harry Truman and Jordan's King Hussein, and glimpses of the infamous, including Adolf Eichmann. Recalling human encounters on six continents, she paints a vibrant, funny, and moving picture of humanity. Ultimately, no figure comes into clearer focus than Morris herself, an astonishing chronicler of the human spectacle. Contact! is one book you'll want to carry with you wherever you go.*

*Oxford Now in mass-market paperback from the national bestselling author of The Troop—which Stephen King raved “scared the hell out of me and I couldn't put it down....old-school horror at its best”—an utterly terrifying novel that pits the mysteries of The Abyss against the horrors of The Shining. A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget—small things at first, like where they left their keys...then the not-so-small things like how to drive, or the letters of the alphabet. Then their bodies forget how to function involuntarily...and there is no cure. But now, far below the surface of the Pacific Ocean, deep in the Mariana Trench, an heretofore unknown substance hailed as “ambrosia”—a universal healer, from initial reports—has been discovered. It may just be the key to eradicating the 'Gets. In order to study this phenomenon, a special research lab, the Trieste, has been built eight miles under the sea's surface. But when the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine. “Fans of unflinching bleakness and all-out horror will love this novel....Each new shock is freshly disturbing” (Publishers Weekly, starred review).*

*Train to Trieste For six centuries the Republic of Venice was a maritime empire, its sovereign power extending throughout much of the eastern Mediterranean - an empire of coasts, islands and isolated fortresses by which, as Wordsworth wrote, the mercantile Venetians 'held the gorgeous east in fee'. Jan Morris reconstructs the whole of this glittering dominion in the form of a sea-voyage, travelling along the historic Venetian trade routes from Venice itself to Greece, Crete and Cyprus. It is a traveller's book, geographically arranged but wandering at will from the past to the present, evoking not only contemporary landscapes and sensations but also the characters, the emotions and the tumultuous events of the past. The first such work ever written about the Venetian 'Stato da Mar', it is an invaluable historical companion for visitors to Venice itself and for travellers through the lands the Doges once ruled.*
