The Cultural Experience has helped generations of undergraduates discover the excitement of ethnographic research through participation in relatively familiar cultures in North American society. Grounded in the interviewing-based ethnographic technique known as ethnosemantics, the latest edition continues to treat ethnography as a discovery process. Students are taught how to set up an ethnographic field study, choose a microculture, and find and approach an informant, as well as how to ask ethnographic questions, record data, and organize and analyze what they have learned. Detailed instruction on how to write an ethnography is also provided. The guidelines are followed by ten short but substantive, well-written student ethnographies on such microcultures as exotic dancing, firefighting, pest extermination, and the work of midwives and police detectives. The Second Edition of this popular classroom volume includes boxed inserts that offer suggestions to aid in the research process, material on how to use observation and narratives with the ethnosemantic approach, an emphasis on how to find cultural themes and adaptive challenges by analyzing ethnographic field data, and extensive strategies for writing the final ethnographic paper. It also presents a comprehensive treatment of ethical responsibilities as well as a discussion of the significance of ethnographic research and its applications in the workplace.

NATIONAL BESTSELLER • Set against London's racial and cultural tapestry, venturing across the former empire and into the past as it barrels toward the future, *White Teeth* revels in the ecstatic hodgepodge of modern life, flirting with disaster, confounding expectations, and embracing the comedy of daily existence. Zadie Smith's dazzling debut caught critics grasping for comparisons and deciding on everyone from Charles Dickens to Salman Rushdie to John Irving and Martin Amis. But the truth is that Zadie Smith's voice is remarkably, fluently, and altogether wonderfully her own. At the center of this invigorating novel are two unlikely friends, Archie Jones and Samad Iqbal. Hapless veterans of World War II, Archie and Samad and their families become agents of England's irrevocable transformation. A second marriage to Clara Bowden, a beautiful, albeit tooth-challenged, Jamaican half his age, quite literally gives Archie a second lease on life, and produces Irie, a knowing child whose personality doesn't quite match her name (Jamaican for "no problem"). Samad's late-in-life arranged marriage (he had to wait for his bride to be born), produces twin sons whose separate paths confound Iqbal's every effort to direct them, and a renewed, if selective, submission to his Islamic faith.
